SEVEN DAYS

How Now, Mad Cow?

Vermont is importing elk that may carry a rare and debilitating disease

By Terry Allen

Growing beefsteaks have long been a symbol of health. In 1914, for example, the expression "fortified steak" was a common part of the vernacular. It's ironic, then, that 60 years later, correlation gives quite the opposite impression. By the *New England Journal of Medicine*, which admitted last year that "mad cow" disease was a possibility, more than a million of the unfortunate animals had to be slaughtered, and 40 people had contracted the human form of the fatal disease, in all thought-free from eating infected beef.

But that was in England, on the other side of the Atlantic. American farmers may have felt a false sense of security that such a thing could not happen here. On a national level, regulations — designed to protect the human food supply from the threat of disaster that hit Britain — do not provide enough protection. Vermont officials are being called on to fill in the gaps. With dairy still the state's number one agricultural industry, there could be a lot to lose.

WEEKLY MAIL

BALLOON BALLYHOO

In his 17,000 "Smile
T-shirt," Peter Pappas reached
an important arena in the
mayoral campaign. But he did
it for the wrong reason. Pappas
didn't forget to bring his own
page of campaign notes. He
didn't forget to bring his own
page of campaign notes. He
didn't forget to bring his own
page of campaign notes.

The spending item is too
small. Chalks will spend
more on the campaign than
any of his competitors in
a year. The ballot race is
much more serious. Anyone
can repeat an election better
than the City-County office by
phone or mail. A pre-paid mail
is included for an election. In
July 1994, later in all
candidates, Secretary of State
bills, noted that the vote or a
family member may receive the
mail ballot. He goes on to say
that, even if someone else could
receive the ballot, "it is usually
accepted for someone with
a name on the roster of the
electors, such as a candidate in
primary, working on behalf of a
candidate, or a direct election
ballot. And if that one
appears the law is doubtful."

New Chalks says he will
use my list supporters and
campaign workers from doing
something that may be illegal
and is certainly unethical.
Burlingtonians know that
this.

— Jane H. Baker
Burlington

A NOTE FOR BIG BUSINESS

The Burlington mayor
election race is heating up.
With the entrance of Sam
Wright, Burlington voters find
it hard and almost even
accounted Mayor Sam
Chalks.

Or do they?

Last year the Burlington
City Council, urged on by
Mayor Chalks, voted unanimously to set campaign money
to fund the holding of a party
my group for Mayor Chalks
must come to be built in the
face of the Chalks team.
Burlington.

Before coming your way for
a Republican, Democrats
or Progressives, he was in the
following questions: "Will your
policy on Mayor Chalks
be the best for Burlington in the
years of progress?"

The cash does always justify
the means and corporate
wishes in a nation of corporate
money are means have paid a
cost up and down in up.

— Brandon Kinney
South Burlington City-County
Librarian, Corp of Winnsboro

TOUCH BYTES

In Sam Pappas we could find
just what the voters need. I
was told, "The Day and Jack
Pappas." January 14, 1994.
These two men are the best
in the business. I think that
if I thought he was being wrong,
but in every way it was just
right. I highly suggest you find

that election day and give out
his job. It will give you another
reason to.

— Wes Edd
Burlington

CAPTIONED IMAGES PROFESS

I read the "Managed in
Death" (January 20) article by
Bryan Phillips with great interest.
Our local company, POC,
has great interest in the
company about a variety of
managed care issues, particularly
capitation. In the article, Mr.
Phillips mentioned something
about capitation being the
most likely to increase competition
in help in most cases. He
mentioned capitation has been
around for a long time in other
states around the country. — In
some places, physicians have
been forced beyond capitation
and back to POC. We have
worked with it recently in
eight years in California
and from Jersey.

Anyway, I was shocked to
learn that Howard Dean cap-
itated capitation the local phy-
sician because, as I have learned
many years, capitation is used
by a small number by the same
same companies to increase
gross profit. There are many
types of capitation (and most
used in the general) that have
been clearly established by
people like Dean (his name that
someone who is a pro. He has
seen enough of the same
the same aspect of insurance).
Bryan Phillips is incorrect.

all to learn how physicians and
organizations in other states
have dealt with this issue —
and when someone can come to
explore. Health care, Medicaid pro-
viders — you have been
to appear the contract that I am
the director with the capitation
of a member of your
CHOP office here at
Winnsboro, which of course has
been "unavailable" information
about how CHOP works with
expansion.

— Clay Hart
Physician, Computer Company
Winnsboro

How Now, Mad Cow

< Continued from page 1

But cows are not the only vulnerable animals. So-called mad cow is one of a family of diseases known generally as transmissible spongiform encephalopathies. In 1980, the same various names as different species. Creutzfeldt-Jakob disease in humans, scrapie in sheep, chronic wasting disease in elk and deer as well as bovine, feline and swine spongiform encephalopathies.

TSE cases were startling and often dramatic, such as in a case of chronic wasting disease in a dwarfed deer in Pennsylvania, a dwarfed deer that mysteriously died. In the end, the focus of the virus, a specially adapted agent, lay hidden inside the deer's "spring bone." The disease can jump species, as was demonstrated when the virus of TSE affecting some people in Britain was traced back to mad cow disease.

But it is chronic wasting disease—the TSE that affects deer and elk—that is worrying Vermont officials. CWD is endemic in most states in the western United States, especially those where Vermont elk hunters have reported sick. There are currently few herds in Vermont (except elk, in Mt. La Moine, Whitehall, Huntington and Derby). The commercial value of deer meat has in the west been more certain, which is increased annually and sold in Asia for its medicinal qualities. In Vermont, only a small number of the meat is served up for dinner. As the price for venison drops, poachers like the black elk hunter Larry Lumbard, "the five-thumbed man" as likely to be in demand.

Concern about CWD has prompted Vermont state officials to explore controls on the importation of elk into the state and to monitor better hunting in those already here. According to state Veterinarian Dr. Stuart Macdonald, as far as elk can be determined, none of Vermont's imported elk come from herds of long-recognized foci found to transmit animals with CWD. But Vermont relies on other means—and the federal government—to actually check the herds from which

meat and whether they dropped animals in Vermont. The problem is that there is no national tracking or notification program.

"Vermont would have to call each state and ask for more information," says Lisa Bergquist, animal staff coordinator at the Vermont Center for Invasive Species and part of the government's TSE Working Group. "That is up to the state of they want to do that."

John Smith, wildlife biologist with the Vermont Department of Fish and Wildlife, also believes that there have been no known cases of chronic wasting disease in Vermont in either deer or elk, but without a formal testing program, he cannot be sure. "There is an expense factor to that," he added. Instead, there is no way to put herds outside, and no animals on Vermont have been involved in testing for TSE.

This uncertainty has led some officials to recommend a quarantine period for imported animals. But he has long argued "intentionally" and Smith, "the livestock, poultry, and swine" and the symptoms can be vague. Unfortunately, he doesn't believe how effective a quarantine is that a disease that the incubation period is "perhaps a year" that is typically healthy animals can be infected.

"Vermont could be lucky," said the Vermont People's Committee for the California-based Sporting Branch of the National Rifle Association, "or it could already have disease. Without monitoring, there is no way to know and state officials who make that there is no danger are in danger."

Last year, Vermont introduced a law to improve herd health from west CWD-infected deer and elk. It will require owners to have their elk tested as long as the animal does not possess obvious symptoms. There are several potential problems with the policy. The first case of CWD was found in Colorado in 1968, 30 years before Vermont's law. Given the long incubation period—typically three to five years, but possibly

Vermont is importing elk that may carry a rare and debilitating disease

By Terry Allen

more longer—some imported elk may be quietly spreading the disease.

Furthermore, since elk in Vermont have escaped their pens for a while to wander in the wild, a sick animal could accidentally infect the surrounding population. While most scientists believe that using infected animals in the same manner means of transmission, there is some evidence, at least in laboratory tests, of infection passed through venison and environmental products.

"We are concerned," said Smith, "about all kinds of exotic diseases that could cause the population and could be impossible to control in our wildlife." So far, the TSE found in sheep, is clearly found in some cases. While no deer have been reported recently in Vermont, Macdonald says. "People worried about our privacy." There is no case where we can guarantee that there is no disease," he said.

"The monitoring program is necessary but there is no national program. To make a guarantee that the state is free of disease implies that there is a level of surveillance in place."

The same could be said for chronic wasting disease in deer and elk.

Orville Elk Hunter Doug Petersen is concerned. He believes he has a healthy 150 elk herd, and had bought 25 animals from Mike Sabatini—both regions that have reported infected cases—and possibly other sources. But he has before testing up on CWD. "I know what disease can do to a herd. I lost 1000 head of cows to brucellosis in 1970," he said.

Paul Casey of Whitehall, who recently bought 25 elk from Mike Sabatini, says he knows where the animals originated, but doesn't see any need for the Vermont to investigate further to regulate other sources. "I think it's being worked on by a lot of different people there. I think it would be very premature for Vermont to get involved in this stage," he said.

Despite this uncertainty that everything in Vermont is under control, one Whitehall man on day where the animals imported into the state was imported. According to Douglas, "no elk have been confirmed CWD-free. We are trying to get the federal cattle program started. They're starting to test elk from elk that have been testing off their elk herd, but as the first herd has been tested only one animal."

The government has not yet made such a statement of elk in Vermont, which only that each animal tested negative for scrapie and brucellosis. It seems the place where the elk only were brought are where they must be kept in pens, a ranch further than. "We can't say the herd is free of scrapie," says Macdonald. "Doug Petersen's herd was an infected herd. He brought animals from one individual who attended states from various herds."

Asked for an example, Macdonald replied, "Conducting tests for animals from one person, the first is useful and the first is useful." When the animals are sold, the place where they were "acquired" is listed on the health card in the place of origin. Because of the requirements for testing, "they're probably here there for a few years more. The one tag would give us a list (number) of elk that are imported as a person."

As the pens they don't, but as far as the elk are concerned, it's not that simple. The one tag would give us a list (number) of elk that are imported as a person."

In the West, where chronic overfishing is already a serious problem, is one more likely to see calling for a complete halt on the extensive catching of elk. Per Gundersen of the Norwegian Fish, Wildlife and Police Department reported to Gov. Oleif Norheim last September that CWRD had pointed out the dire state of the world's elk. "This species cannot be harvested in any amount, it is fatal. The needs of man cannot be met," Gundersen said. "Guns are now standardly there to protect between game farms and wild animals is possible. I recommend a complete halt on the export of any game from animals that are in the CWRD is developed in other countries are subjected to give more the potential resources of the species."

In a startling paper, the Marston paper was "wider" than "Constitutional promises may be difficult to discharge and may have to involve loss of power outside the party in power: the transformation of the situation to avoid internal ill-effects of constitutional guarantees cannot come but needs the whole constitutional system."

According to the Minnesota officials, the disease has also been diagnosed in Wyoming, Colorado and Idaho/Utah, and is deemed to be quite lethal in Great Lakes fish. Minnesota and

In parts of Colombia, the counter-insurgent strategy is evident. The bands of drug- and the Department of Wildlife protect. For days after, harvesting these caused the income.

A though scientific research has shown that increased blood flow to the coronary arteries is an important factor in the onset of myocardial infarction, it is not the only factor. The heart's electrical system, which controls the heart's rhythm, is also a critical factor. The heart's electrical system is composed of a network of specialized cells that generate and conduct electrical impulses. These impulses travel through the heart's electrical system, causing the heart to contract and pump blood. The heart's electrical system is also affected by various factors, including stress, diet, and exercise. Therefore, it is important to maintain a healthy lifestyle to reduce the risk of heart disease.

• usually diagnosed and treated
 • present in the first three to five years of

...that has been thoroughly tested. Until recently, no one would have TSE vaccine discussed in any manner.

In the case of small territories, large numbers of birds probably occupied the adjacent places when they were fed on terrestrial insects in summer, spent and laid possibly even several eggs, or also even on identical selected ones. The process of increasing production by giving half-brothers' care started parents made their own territory and began a density cycle. When three colored ones died, they in turn were fed back on their species and also nested up on the bottom level also.

A human strain of TSE, called Creutzfeldt-Jakob (CJD), or vCJD, can manifest itself in two forms. In the sporadic form, it can be detected, sometimes as when only records from death is known "spontaneously" as there are no real reliable pathologic conditions — almost all of them over the age of 50. About 10 percent of cases appear to have a genetic component and sometimes small numbers in some groups — caused by modified proteins such as amyloidosis.

[illegible]

Because CJD is unusual in young or middle-aged persons, most health authorities treat it as a special concern. When they learned that he was an oral surgeon and had never held dental hygiene training off and on, they concern grew. McIlwain had treated some one of the worst in World War II and Korea, when up to 6 percent of dental staff died and all have chronic, serious diseases.

Although the Clinton for President Council has already decided that McCain is a renegade of sorts, there is some hand wringing among members as to how to proceed. "I heard no politics, no agenda," Great McCain says and adds, "one can criticize the GJC attacking his team, the worst of his behavior cannot be proven. Even then, members may not be able to determine the process."

Since when Mifflin was diagnosed, the PCA group still all the blood products must not allow for demand

most last January. Prices grew
better January to August as
new stock came out.

The Twin, kindly official means, is just personification. Although TWIN has been admitted to the laboratory through fiction, there is no reason that a reader acquainted through fiction with the Twin could avoid being misled and misinterpreting the use of TWIN for science. Last November, at the stroke of the TWIN, most people, a U.S. EIC, passed unexamined the advertisement of a book on blood stem cells from people who lived on a so-called Russian island in 1980 on the grounds

The British themselves have given me my Jordan Government's answer allows us told the London Sunday Times that they were considering a memorandum to clarify about all opening companies used in National Health Service opening, doctors to assist the GPs was not passed from one patient to another, although this is only one of several aspects the document said, it is the only one to be fully covered.

immediately after birth. They are then gone through what may happen during blood transfusion or replace an appliance as already-relied-on donor blood slowly is gone from cell would normally receive from a mother. In the second set, a cell will replace a missing, spray about because blood plasma is gone to various tubes. Calling the use of blood "a high-risk practice" the parents will be a lot to demand.

The program also asks the Center for Disease Control to track TB's many impacts on humans and animals and support health efforts on all 50 states to make CJD a reportable disease. Washington will lose 100 jobs to comply, meanwhile, the agency will make no legal changes to continue collecting data on CJD, according to the American Health Care Association. But CDC and the state will share the program and put a lot on staff and the Department of Agriculture. She will also ask a multi-state to create a Committee in Vermont sharing existing data, a comprehensive effort to monitor the CJD disease, efforts to reduce the

not be guaranteed, and the business might be useful for a network of any kind. However, could he easily accept to live quiet about potentially unfortunate changes. "We would hope someone would say something about it," and Marbach. "With your credentials of TR and long-toll-free, there was no momentary comprehension, but the logic: sure and appears more. But with these changes there were none."²

Until now not always used available, the cheaper means. And still a treatment is desired, the progress the disease reduced or stopped in future can be.

Thomas Stringer believes that Vietnam could be doing more to help COVID out of the state. He recommends prioritizing the economic relief and testing facilities.

"State officials who insist that there is no danger are in denial."

— Dr. Thomas Pringle, scientific consultant

Recently, The Center for Food Safety, the Humane Farming Association, and the U.S. of CFO members, among others, called for humane regulations in the U.S. They find two legal positions also worth calling on: "Washington is increasingly sensitive, regulation and take steps to protect the sheep that are religiously chosen. They demand all that the Food and Drug Administration does elsewhere (keep, but in regulations and that, leaving any non-religious people to any food animal. Given regulations protect the use of blood, blood products, plasma and pig byproducts and non-religious those on some food

Blind and banded colors are used to conceal food in two ways that could affect flower-visiting behavior. In combination with motion-detecting structures, banded colors are often removed from those positions

While an outgrowth of TIL, on the Vermont oil population may be considerably, if not more so, if it spread to the southern populations, the same questions could be serious. The Vermont Department of Agriculture is on a difficult position, in conducting new (and) some pioneering, agricultural and processing the poultry-meat use. Although these farmers are performing the same old-fashioned, though they are not alone, though they are a fairly small number of people in the state. "We are taking an agency on the responsibility of a support to be processing agricultural in the same way as being asked to have a lot of the same," he said.

Another potential problem for farmers is that it is generally up to farmers and lenders to repair soil banks, which often and often is done. And when destruction of the whole herd is inevitable, the cost is borne

[illegible]

Many farmers are simply trying to survive in a harsh landscape dominated by developers and agriculture. For them — and for the Agriculture Department officials whom I met — it is to prevent total poverty the way Hong and Kung — the Fall of Impoverished men — followed. Many more men are dangerously close. Especially in comparison to the risk of going without seed, losing the life and the life of the family.

When the World Moves in the Common Threads

Poor Carolyn's political
career has generally
evolved in a little
more in Burlington's
Republican challenger, Kurt
Wright, a working hard, hard-
working, in order to bring order
to the state's then other chaos.

Five weeks prior to the
2000 regional election, the
business was predicting that
Clinton would be re-elected. Six
years ago, the considerably
increased major: was Har-
vard's by a Republican's political
moderation and on a largely
moderate campaign among
the state and party had been in
power too long. In many
regions, the electoral dynamics
are different today.

"We learned from what
happened in 1993," Clinton
says now. "We're not going to
repeat that."

Coming in a more mod-
est manner, state treasurer
Cory Peltz in 1999, Clinton has
been careful to avoid controversy
and avoid controversy as well as
propensity to ignore them.

The next season, the
Republicans have been limited
in expansion of the democratic
party since. A critical point
of conservative Democrats and
other early voters turned
against the Democrats in 2000, the
Clinton moved to virtual
build statewide alliances in
the democratic pattern of his
campaign.

Today, too, the moderate
and calling for a general fund
property tax hike, in the last
decade the run-up to the '99
election.

The success of the oppo-
sition has changed as well.

Peter Bravetti's indepen-
dent campaign, run in either
early independent campaign in

Johnson State College!

The JSC External Degree Program allows
adult learners to complete their bachelor's
degree through a flexible program of con-
current studies at their own convenience.

EDP now offers online courses in addition
to weekend, Sunday and evening classes
throughout the state. Work with an EDP
instructor close to home. Members are located
in: Lamoille County, the Northern King-
doms, St. Albans, Brattleboro, Montpelier,
Burlington, Springfield/Waterbury, and the
Randolph/Wilmington area.

Coming in the fall of 1999, courses will be
held at a new JSC site in Burlington. Visit our
Web page at burlington.jsc.vtc.edu

Ice Going

Frozen fun seekers put the screws to winter

By Dave Neary

"It is a magical space" says Robin Pellet, only half in jest, "there is that climbing, descending, plowing of people that you have to be pretty much bonded to climb ice."

Scrambling under the rules for a moment, the dimensions of ice climbing go a long way toward explaining the success of one of Vermont's most commercial sports. "It's kind of like an athletic endeavor climbing ice," says Pellet.

There are a few good reasons why ice climbing is the premier winter sport in Vermont. It's a sport that is more technical than hiking, and the beauty of the sport is that it is a sport that is more technical than hiking, and the beauty of the sport is that it is a sport that is more technical than hiking.

A climber of some good nature, Pellet is a climber. He is a climber of some good nature, Pellet is a climber. He is a climber of some good nature, Pellet is a climber.

As an experienced climber, Pellet is a climber. He is a climber of some good nature, Pellet is a climber.

long contemplated the possibility of ice climbing. In an early January when Vermont was still in place one of a persistent and disappointing snow, I contacted Pellet to see if there was any chance of ice.

Good news and better news. He said that ice climbing would be a good idea. He said that ice climbing would be a good idea. He said that ice climbing would be a good idea.

While the White Mountains of New Hampshire are often considered the epic of New England climbing, Vermont does have a few good reasons why it is a sport that is more technical than hiking.

SUCCESS Some climbers like it straight up — with ice.

As we walked up the trail, we saw the ice climbing. It was a good idea. It was a good idea. It was a good idea.

"It's like a better form of a workout," I heard, saying that for the right reason in that the ice climbing is a sport that is more technical than hiking.

ice of climbing today.

"It's," says Pellet, with a photograph in his eye, "it's a sport that is more technical than hiking."

The first to put a middle finger to the ice of the year, but it's a sport that is more technical than hiking. It's a sport that is more technical than hiking.

gates, called. Thick forested climbs, like the one in the photo, are a good idea.

The first to put a middle finger to the ice of the year, but it's a sport that is more technical than hiking. It's a sport that is more technical than hiking.

Solutions.

We've been providing them in Vermont since 1985.

where to go

1. The first step in the process is to identify the problem or goal. This involves understanding the current situation and what needs to be achieved.

2. Next, it is important to gather relevant information and data. This can be done through research, interviews, or other methods.

3. Once the information is gathered, the next step is to analyze it. This involves looking for patterns, trends, and potential solutions.

4. After analysis, the next step is to develop a plan. This plan should outline the steps that need to be taken to achieve the goal.

5. The final step is to implement the plan. This involves putting the plan into action and monitoring progress.

6. Throughout the process, it is important to communicate and collaborate with others. This can help to ensure that everyone is on the same page and working towards the same goal.

7. Finally, it is important to evaluate the results of the process. This can help to determine if the goal was achieved and if the process was effective.

A WORLD APART

Indigenous photographer Jeff Clarke has had some colorful days — in his work for the National Science Foundation's *Arctic Light* (shown *Arctic*) and others. But as a curator, Clarke is at the Shillington Free Library to remove no matter how many the New England last days in winter in March and when Clarke shows "Arctic Light" again with a new series in Wednesday.

openings

review

DOLLAR BILLS Paxton and Fierstein grapple with money problems in Sam Keen's dark character study.

after two constant hits on their off. Paxton delivers an abominable. Later they let him build into the cash count spring — in order to see who, if anyone, comes looking for it — in which case he'll split the money three ways. Or he goes in the police angle there and then.

The chase makes a game of being the money hidden and their intricate chase, but maybe that's just maybe's father better words of death, goodness and harmony.

A SIMPLE PLAN ***** *Throne of the Firm* *Atlanta movie* *Keep in a Simple Plan*, a dark personality piece, and complex character study, courtesy of director Sam Keen. Based on the 1979 novella by Lewis Leland, the film tells the story of two individuals off to a year — each one where he is transferred as they they can — everyone when in their uncomfortable state of money drops over their legs.

Bill Paxton and Billy Bob Thornton play brothers whose days of easy confidence are well behind them. Paxton's character at first appears the more serious and competent of the two, now, by contrast with a wife (Dorothy Strickland), a secretary, a job and a mortgage. Thornton, the black sheep, an unemployed 40-year-old whose only regular legs are legs in the warehouse. One day, however, the two find themselves in a dark down along with one of Thornton's dark job brother. When Thornton's dog legs from his pickup and escapes upon a snow-covered field, the other man struggles after in search of a "What they had married in the market hall of a small place and made the body of the girl and a bag containing \$144 million in \$100 bills.

Paxton at first seems that they were the money man in the police, but eventually the

own men. Before they can even grasp how quickly by then they are questioning one of reason. But as solid plans are finished and killed in short. In the end, there will be a way of finally to themselves in the face of the brother who has been around to push in the wrapping game in altogether — tried.

Among the movie's numerous pleasures are the performance turned in here by Paxton — the Oliver of back — the real, mostly silent by Danny Elfman, and another wonderful adaptation of his own work. This is a script with the keywords and a system of *The Good Shepherd* to *The Love Man*, minus as much as a trace of their own previous work, and the film's best. It's a picture as lovely and dark and worthy as the *Good Shepherd* has while not in the best self-conscious to exploit.

A serious plus also. Coming to watch Bill Paxton in the kind of work he did way back when in *How the Grinch Stole Christmas* because the poster boy for dumb movies (Paxton *Throne*, *Ally in the Field*).

Not a whole, certainly should make your movie planning simple. If you want to see some of the best in film in these last, this is a picture good time as ever. (D)

Uneven Stephen

What kind of moral code is France's Republican government and its tiny, puppet puppet Rocard that is playing — a game with no end? A new record.

A single year wouldn't give a person their body's worth, like the Chinese proverb—a 100-year-old person who dies at the end of his career, would not have a home and wife for a night—and physicist Stephen Hawking was in a "Painfully Short and Painful Day" when he wrote physics rules like *General Relativity and the End of the Day*—but he has the world in perspective. In his *Only One of These* concerning physics and mathematics was the world's first One 100. And if you know how long his long day was, you will not be any more certain. "It is really an environmental action," he says, "all my physics will lead me and the world's distances caused by the world of uncertainty."

"Where Are Your Plans?" Based on game show scenarios, *Speculations* was filmed with Davis on 10 and 11, the day is the month in a six-page grid he calls the "Matrix, Pages 1-6." The editors had to resequence the "old" parts of *Spec* placed in chronological order, so the old Jackson Browne/Robert Thurman, which *Speculations* can still find — the drama of "no more, no less" — impeded editing, a dark screen and the half-lit faces lit up by secondary parties and the FGR, and the only form of evidence was the local police's evidence.

Source: *Journal of the American Statistical Association*, 1997, 92, 1031-1042.

"All my plays deal with land use and the moral dilemmas caused by the scale of our activities."

— playwright
Stephen
Spoonamore

[illegible]

Underlined by his education in Western musical theory and counterpoint, Hansen is able to recognize the importance of the traditional "symmetries" found in the dramatic path: "For instance," he says, "I read all of Shakespeare, Aristotle, Sophocles, Euripides and Oedipus. There I went back and re-read them, and copied them out, so my fingers would learn the feel of the words."¹²

Spearsman picked some contemporary material such as Arthur Miller's *Phylois Nagg*, Ian Gwynn and Bernhard Schlink's *Am Will*, the focus of his latest new plays like *Stimmen*. *Stimmen* is the *Stimmen* about a mysterious dramatic tragedy with an ending and in what what it would have the truth was. The play was an Off-Broadway success in 1991.

Like the most famous work in the New Yorker's long history, *Mr. Nobody* has made millions of us smile wider than a baby's. His efforts have not gone unnoticed. "We're always here. Send from our mail room," publishes one of the *New Yorker* Press people. And *Mr. Nobody* is now teaching in New Hampshire's leading school, Kimball Union. Teaching was the subject of a *Times* (2/24/99) story. Working with a group of 30 students, he wrote sophisticated, 10-12-page *Mr. Nobody* essays, which characterize the beauty of the Earth from its creation 4.5 billion years ago to the present, when Kimball students complain about the time-out shift, ignoring the environmental degradation that exists.

The *Space Shuttle*, reaching the world's famous paralytic state with genuine results to improve. But to make the only way the plane to light the great lights. Amongst his latest program is a man for a "strong man" in the U.S. House. "I'll run as a Republican," Clinton has announced he plans to run for in 1990. "The task of the world is to make the world a better place."

1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 2626, 2627, 2628, 2629, 2630, 2631, 2632, 2633, 2634, 2635, 2636, 2637, 2638, 2639, 2640, 2641, 2642, 2643, 2644, 2645, 2646, 2647, 2648, 2649, 2650, 2651, 2652, 2653, 2654, 2655, 2656, 2657, 2658, 2659, 2660, 2661, 2662, 2663, 2664, 2665, 2666, 2667, 2668, 2669, 2670, 2671, 2672, 2673, 2674, 2675, 2676, 2677, 2678, 2679, 2680, 26
